The Steel Institute VDEh
Your network in the steel sector

The Steel Institute VDEh in the Stahl-Zentrum in Düsseldorf promotes technical-scientific collaborations between steel companies and scientific institutions in Germany and Europe. As a personal member of the Steel Institute VDEh you are part of a large international community. About 6,300 personal members exchange their expertise and experience within this network.

Your benefits as a personal member :

- A personal invitation and free participation in the STAHL annual event and in the Steel Get-Together from 2016 on Düsseldorf
- Special conditions for receiving the technical journal stahl und eisen and the books of the Stahleisen Publishing House**
- Reduced fees for the technical conferences of the Steel Institute VDEh
- Reduced fees for the further education seminars of the Steel Academy, part of the Steel Institute VDEh
- Access to one of the world's most extensive specialist libraries, with more than 160,000 technical books and journal volumes on all aspects of steel
- Free regular VDEh newsletter in English, with information on steel-relevant topics and events in a compact form.
- Involvement in promoting the next technical-scientific generation: in addition to VDEh grants, the annual Young Academics Steel Award is presented for excellent performance in doctorate dissertations, as well as masters and bachelors theses.

- If desired, a subscription for the daily 'steel online news' for EUR 98 p.a. (instead of EUR 198) and the weekly Press Review for EUR 198 (instead of EUR 270). The steel online news briefly summarises the most important current news and developments regarding steel. The Press Review is a weekly printed issue that contains the most important press reports from Germany and abroad in full.
