

National mirroring and participation in the European (ECISS) and International (ISO) work on standards for:

- Hot-rolled steel plates (non-alloy, alloy, stainless)
- Continuously hot-rolled uncoated sheet and strip (non-alloy, alloy, stainless)
- Hot-rolled narrow steel strip (non-alloy, alloy, stainless)
- Wide flat steels
- Cold rolled uncoated low carbon and high yield strength steel flat products for cold forming
- Cold-rolled steel strip
- Cold-rolled stainless steel wide strip and sheet/plate
- Cold-rolled narrow steel strip
- Continuously hot-dip coated steel sheet/plate and strip

The German standards committee for iron and steel (FES) holds the secretariat ECISS/TC 103, 'Structural steels other than reinforcements'.
